Ministry of Health Malaysia**

Welcome Message

Dear Doctors,

On behalf of AO education, local, regional and international faculty, it is our great pleasure to invite you to participate in this AOTrauma Advance Course 2010 in Serdang Hospital, Selangor, Malaysia. Over the years AO education has taught many surgeons and ORP from all over the world. Since it's inception in 1958, AO has been very committed in the forefront of trauma education, training and new developments worldwide. Indeed it has become a household name in trauma education.

The main purpose of AO education is to improve the care given to the patients. We hope all of the participants will gain new knowledge during this entire course and it will be translated into the acquisition of new skills and understanding which you all can bring home and practice in your hometown. We also hope that you can create a new network of friends that you meet during the course. After the course you are welcome to have a long term relationship with the AO foundation through AO alumni membership.

Located about 30 km south from the capital of Malaysia, Kuala Lumpur, Serdang Hospital is a 620-bed government-funded multi-specialty hospital, heavily relies on information technology and uses the 'Total Hospital Information System'. This hospital is situated within the [Multimedia Super Corridor](#) and near [Putrajaya](#), the [Malaysian Federal Government](#) Administrative Centre, a well-planned beautiful garden and intelligent city. It offers many attractive buildings, structures, landscape and panoramas which are different from other parts of Malaysia.

We really hope you will find your time here is an enjoyable one.

Dr Basir Towil
Local Course Chairman
AOTrauma Course 2010
Kuala Lumpur, Malaysia
