PRE CONGRESS WORKSHOP : 29TH. MARCH 2013
- 2 HANDS ON WORKSHOP
- 2 DEMONSTRATION WORKSHOP

MALAYSIA CONGRESS
( LIMB LENGTHENING & RECONSTRUCTIVE SURGERY )
29 - 31 MARCH 2013

Organized by:
ORTHOPAEDIC DEPARTMENT
HOSPITAL TENGKU AMPUAN RAHIMAH KLANG
in collaboration with
MALAYSIAN ORTHOPAEDIC ASSOCIATION ( MOA )

Venue:
AUDITORIUM PERMATA
Kompleks Rawatan Harian, HTAR Klang
We take great pleasure to have been given the opportunity to host Malaysia's First ASAM Symposium. It is really bafﬁng that this Congress is being held here in HTAR Klang as without doubt, this is the hospital dealing with a huge number of patients needing Ilizarov Surgery. More than 260 patients are treated yearly.

Over the years, we have been able to save the limbs of hundreds of patients who otherwise would have ended up with complications and amputations. We have invited renowned international and local speakers to share their expertise and knowledge with us. We have lined up more than 80 lectures as well as 'hands on and saw bone’ demonstration workshop and with more than 20 free paper presentations.

The fundamental objective of this Congress is to further disseminate the principles and application of Ilizarov Surgery to our participants in the hope that more surgeons will be inspired to undertake this speciality.

Last but not least, we wish to thank MOA for their undivided support and our presenters and speakers for coming forward wholeheartedly to ensure the success of this Congress 2013. Thank you.

Dato’ (Dr). Thirumal Manickam D.P.M.S., S.M.S. Organising Chairman and President ASAM.
