YOUNG SCIENTIST MENTORING PROGRAMME
Eight young investigators will be invited to present their scientific work and research ideas to a panel of senior investigators who will provide constructive comments; held as a separate pre-meeting session on December 13, 2012.

IOF YOUNG INVESTIGATOR AWARD
As part of its commitment to fostering young scientists and advancing bone research, IOF is offering five Young Investigator Awards. The top five selected abstracts will be awarded 1000 USD each and an opportunity to present their research.

The Meeting has been granted 17 European CME credits (ECMEC) by the European Accreditation Council for Continuing Medical Education (EACCME). The Meeting is also accredited with 20 Continuing Professional Development (CPD) points by the Malaysian Medical Association (MMA).
