11th Oct 2009

Members of Malaysian Orthopaedic Association

Dear members,

Re : ASEAN Edition of Malaysian Orthopaedic Journal

It is my pleasure to again invite members of MOA to contribute articles in the form of scientific studies or case reports for the coming issue of the journal which will be the 2nd ASEAN edition. Closing date of the submission is 30th November 2009 and the hard copy will be printed in April 2010. As you might have known, MOJ is now indexed in Embase and MyAIS, and the full text version of all articles published are available online free of charge (www.morthoj.org).

We would also like to invite our members to provide comments on the contents of the published articles. We hope to generate some discussions between readers, authors and editors in the "letters to editor" section. This may also include suggestions on how to improve the content, presentation and circulation of the journal.

For your information, we have printed about 3000 copies of the first ASEAN edition of MOJ early this year and they have been circulated to all the member countries of ASEAN Orthopaedic Association.

Thank you in anticipation for your participation.

Yours sincerely

Dr. Saw Aik
Chief Editor
Malaysian Orthopaedic Journal
