Members of Malaysian Orthopaedic Association

Dear members,

## **Re : Serving as Peer Reviewer for Malaysian Orthopaedic Journal (MOJ)**

With the increasing number of submissions of scientific articles, the editorial board of MOJ would like to invited members of the association to contribute as peer reviewer for this journal. With MOJ indexed and available online, it is very important to ensure the originality of the materials published, and that the scientific value and quality of the articles are of high standard. We strongly belief that many members of the association are able to contribute positively towards the achievement of these goals.

We do not have a fix list of peer reviewers and it will depend on number and subject specialties of the articles submitted for the particular issue. List of peer reviewers who have been invited to contribute will be acknowledged in the last issue of MOJ every year.

For those who have not been invited to serve as peer reviewers and interested to contribute, please download the attached form (CV Guideline) and return them to the MOJ secretariat before end of November. We will most probably invite some to assist in reviewing the articles for the ASEAN edition of MOJ in the middle of December 2009.

Thank you.

Yours sincerely

Dr. Saw Aik  
Chief Editor  
Malaysian Orthopaedic Journal
