## Second Announcement

**March 10 – 12, 2009**  
**University of Malaya**  
**Kuala Lumpur, Malaysia**

## AO Course: Principles in Operative Fracture Management For Surgeons and ORP

Jointly organized by:

Malaysian Orthopaedic

University of Malaya

## Welcome Message

Dear friends,

AO Education has been involved in the development of orthopaedic treatment since its formation in 1958. From organizing the first practical hands-on course organized in Davos in 1960, the organization is now training orthopaedic surgeons and operating theatre personnel all over the world. Malaysia has formed a local chapter of AO Alumni Association (AOAA) this year and we hope that this will improve the quality and effectiveness of local trainers in this country.

In 2009, we will be organizing a combine principle trauma course for doctors and operating theatre personnel (ORP) followed in University Malaya Medical Center, Kuala Lumpur from 10th to 12th March 2009. Established trauma surgeons and from overseas and local members of AOAA will be invited as speakers and instructors for the course. There will be a total of 8 practical sessions and 3 one-hour small group discussions to facilitate the learning process of principles of trauma management. We will also make use of audience response system (ARS) to improve the effectively of teaching / training especially for discussion on management of difficult conditions.

On behalf of the organizing committee, I would like to invite those interested to register for the course. Thank you.

Dr Saw Aik  
Organizing chairman  
AO Principle Trauma Course 2009  
Kuala Lumpur, Malaysia

## Course highlight
