

UK ORTHOPAEDIC FELLOWSHIPS

Plymouth Hospital NHS Trust wishes to appoint **two Senior Fellows** in Trauma and Orthopaedic surgery.

Plymouth Hospital NHS trust is a busy hospital located in the South West of the UK. The hospital has a large dynamic orthopaedic department with 20 consultants covering most sub specialties and is involved in major trauma care.

These posts are whole time substantive appointments for six months in the first instance, extendable by mutual consent to twelve months subject to satisfactory performance and progression. The posts offer exposure to the full range of our Trauma and Orthopaedic Service, in the outpatient clinic, on the ward and in the operating theatre, under the supervision of 20 subspecialist Consultant Orthopaedic Surgeons. The posts are specifically designed for senior trainees who wish to gain advanced training in trauma and orthopaedic surgery before taking up a consultant post.

MRCS or equivalent, clinical and operative orthopaedic and trauma experience at registrar level for a minimum of 3 – 4 years, ATLS provider status are essential characteristics. FRCS (Tr & Orth) is a desirable characteristic. PLAB examination is a requirement.

These posts are Royal College of Surgeons (England) approved for training at Senior Registrar level, and attract the appropriate remuneration.

For further information please contact Dr Rohan Rajan (rohan.rajan@nhs.net) UK liaison, Dr Sharaf Ibrahim (sharaf@ppukm.ukm.my) Malaysia liaison.

Closing date for application **31 January 2012** with interview planned for February in Hospital Universiti Kebangsaan Malaysia, Kuala Lumpur.
